

Double Twist Wrapping Machine

AHP-550

Application:

Our Double Twist Wrapping Machine takes the candy product and wraps it with a twist on either side. This produces a familiar and classic style sweet wrap that's been around for decades and continues to be popular today.

FEATURES:

1. Single or double layer film can be available.
2. The structure of the machine is logical and performance is stable and easy to operate.
3. 100% Packaging, no empty bag.
